MAR 13 1924

This is now our tenth annual Seed List and we wish to express our thanks to all our customers for the confidence and patronage we have received, and we hope you will continue to send some of your orders this way. We aim to have only the very best and most reliable seeds which it is possible to get, and we import the biggest part of our seeds from the best growers in Denmark and other European countries. We realize that a Gardener or Florist cannot be too particular in the selection of the seeds he is using and therefore we are very cautious in getting the seeds from the best sources we know of.

Hoping we all shall have a good season and assuring any orders you may send us our most careful attention, we beg to remain,

Respectfully yours,

DANISH SEED IMPORT,

Chris. Mosberg.

TERMS

All prices subject to changes and to being unsold.

On larger orders kindly ask for special quotations.

Delivery charges will be paid by us for all seeds except Peas, Beans, Corn and Field seeds.

We test all seeds for germination and use every care in having all seeds pure and reliable, but will not in any way be responsible for quality, description or the crop.

CHRIS. MOSBERG.

BAVARIAN SEEDERS (patented)

For Greenhouse and Hotbeds

Small, very handy seeders, practical to use in Greenhouses and in Frames where a large machine cannot be used. Will plant almost any variety of seeds except very large seeds, such as Corn, Beans and large seeded Peas. Can be used for Sweet Peas and Beets if the extra Arbor is used. A small brush regulates the feed.

No. 1. One rowed Seeder holds about 4 ozs. of Radish Seeds. Handle can be moved in any direction. Price, \$4.00.

No. 1A. Extra Arbor for very small and very large seeds. Price, \$0.40.

No. 2. Two rowed Seeder, each compartment same size as on No. 1. Price, \$8.00.

No. 2A. Extra Seed Compartment to attach, one wheel. Each, \$3.50.

No. 2B. Extra Seed Compartment with two wheels. Each, \$3.75.

By adding these extras to the machine a three, four, or five rowed Seeder can be had.

No. 4. Four rowed machine to plant four rows of seeds $2\frac{1}{4}$ inches apart. The cylinder is made with 3 sets of holes. Price, \$8.00.

(No. 4 is sold out at the present time, but we expect to have them on hand very soon, again.)

Pricking Rake, to be used in connection with No. 4, as the space between the teeth is the same as on the seeder. One end of the Rake can be used for loosening the soil between the rows, and the other end can be used as a cultivator or can be inserted in the ground and pulled underneath the plants, cutting all the long tap roots over, instead of transplanting. Price, \$1.00.

We do not furnish the wooden handles for any of these machines.
